PROFESSIONAL SUMMARY

Results-driven Frontend & WordPress Developer with 2+ years of hands-on experience building, optimizing, and maintaining responsive digital solutions. Skilled in translating Figma to pixel-perfect custom HTML, CSS, and JavaScript components, as well as engineering custom WordPress and Shopify platforms. Demonstrated track record in web performance optimization, seamless server migrations, cPanel administration, and technical troubleshooting. Proficient across modern visual page builders (Elementor, WP Bakery & etc.) alongside custom PHP snippets to deliver accessible, user-focused web experiences.

<h1>TECHNICAL SKILLS</h1>

- **Core Frontend:** HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, Cross-Browser Compatibility, Figma -to - Code Conversion
- **WordPress & CMS:** Elementor, WPBakery, Gutenberg, WooCommerce Integration, Basic PHP Snippet Implementation, Plugin Configuration, and Technical Troubleshooting.
- **E-Commerce:** Shopify Store Development, Theme & Section Customization, Product Layout Setup
- **Performance & SEO:** On-Page SEO (Yoast, Rank Math), Page Speed Optimization
- **Hosting & Server:** cPanel Management, DNS & Domain Configuration, Site Migrations, Website Backups

<h2>PROFESSIONAL EXPERIENCE</h2>

WordPress & Shopify Developer — Freelancer

- Engineered and deployed tailored WordPress websites and Shopify storefronts aligned with specific client functional requirements

- Managed end-to-end server operations, including cPanel administration, DNS records, domain linking, backup protocols, and site migrations
- Developed dynamic, custom UI components using HTML, CSS, and JavaScript to extend beyond standard theme capabilities
- Diagnosed and resolved critical CMS bugs and server bottlenecks, maintaining consistently high client site availability and uptime

Frontend Developer — Realatte

- Converted high-fidelity Figma designs and mock-up's into pixel-perfect, fully responsive, cross-browser web interfaces
- Built modular, reusable frontend components using clean HTML5, CSS3, and modern JavaScript
- Collaborated closely with UI/UX design and engineering teams to enhance navigation flows, mobile responsiveness and usability
- Optimized front-end rendering performance, asset loading times, and overall site responsiveness across varied client devices

Associate WordPress & Shopify Developer — Digitalcube Tech

- Developed and customized responsive WordPress websites using Elementor, Gutenberg, and WPBakery
- Converted Figma & PSD designs into pixel-perfect, responsive WordPress websites
- Customized WordPress themes using HTML, CSS, JavaScript, and PHP
- Created custom landing pages and reusable website sections based on client requirements
- Installed, configured, updated, and troubleshoot WordPress plugins
- Improved website speed, performance, security, and Core Web Vitals
- Performed website migration, backup, restoration, domain connection, and hosting setup
- Optimized websites for SEO, mobile devices, and cross-browser compatibility
- Integrated contact forms, Google Maps, analytics, and third-party tools

Desktop Support Engineer (L2) – LS Digital

- Provided day-to-day technical support to users for desktop, laptop, operating system, software, and basic hardware-related issues.
- Installed, configured, and troubleshoot Windows operating systems, applications, and required system software.
- Diagnosed and resolved printer, network connectivity, peripheral, and workstation-related issues to minimize user downtime.
- Performed hardware and software troubleshooting, including system setup, configuration, updates, and routine maintenance.
- Assisted users with IT-related queries and provided timely technical support while following internal support procedures.

- Maintained proper issue tracking and coordinated with relevant teams or vendors when problems required further technical assistance.

Executive Desktop Support Engineer – [Suryoday Small Finance Bank](#)

- Provided L1/L2 technical support to employees for desktop, laptop, operating system, software, and hardware-related issues.
- Installed, configured, and maintained Windows operating systems, drivers, and business applications.
- Troubleshoot desktop and laptop hardware issues including RAM, HDD/SSD, keyboard, mouse, monitor, and other peripherals.
- Diagnosed and resolved printer, scanner, network, and connectivity-related issues.
- Configured and supported LAN, Wi-Fi, IP addresses, DNS, and basic network troubleshooting.
- Installed and configured software applications according to business and user requirements.
- Performed system formatting, Windows installation, software installation, and system configuration.
- Troubleshoot Outlook/email-related issues, including profile configuration and connectivity problems.
- Created and configured user accounts, system access, and workstation settings as per company requirements.
- Monitored and resolved IT support tickets within defined response and resolution timelines.
- Maintained records of hardware assets, software installations, and IT equipment.
- Performed regular system updates, antivirus checks, and basic security troubleshooting.
- Assisted employees with data backup, file transfer, and system migration activities.
- Diagnosed application crashes, system performance issues, boot problems, and Windows errors.
- Supported employees during new system setup, workstation replacement, and office relocation.
- Coordinated with network, server, and vendor teams for issues requiring escalation.
- Assisted in troubleshooting VPN and remote-access connectivity issues.
